

Covered Anesthesia Code for Dental Procedures for KanCare Providers

Attention KanCare Providers:

As of August 1, 2018, HCPCS code 00170 must be billed when an anesthesiologist provides anesthesia in conjunction with dental procedures. KanCare anesthesiologists or CRNAs are to bill the anesthesia code appropriate for their provider type and provider specialty. The dental codes used for sedation are no longer to be used, unless the dental provider is the one administering the sedation.

- *Third Party Sedation* needs to be billed directly to the Medical plans.
- *In-house Sedation* (if offered and administered by the dental provider) needs to be billed to SKYGEN USA.

If you have questions, please email us: providerservices@skygenusa.com. We thank you for your continued participation in our network.

For the most current information and verification of coverage, access the [KMAP Reference Codes](#) page under Interactive Tools on the Provider tab of the [KMAP public website](#).
