How to keep your heart strong

Dear <First name>,

Your heart is one of the most important parts of your body. It pumps blood to all your organs and keeps you alive and active. But just like any other part of your body, your heart needs special care to stay healthy. Here's a guide to some common heart problems. Plus, tests to take care of your heart and what to do if something feels off.

Common heart problems

High blood pressure (BP).

This happens when the force of your blood pushing against the walls of your arteries is too strong. It can make your heart work harder than it needs to.

Heart Disease. This can mean many different problems like blocked arteries, an irregular heartbeat and heart attacks.

High Cholesterol. Cholesterol is a fat that can build up in your arteries and block blood flow.

Screenings to consider

Your provider can make sure your heart is healthy by

running tests like a:

- Blood pressure check
- Cholesterol test
- Electrocardiogram (EKG or ECG)

Symptoms related to heart health

Sometimes, your heart might give you signs that something isn't right. It's important to listen to your body and know where to go for help. If you have any of these symptoms, call **911** or go to the emergency room:

- Chest pain
- Trouble breathing
- Fainting or sudden dizziness

Quick recipe for reaching a healthier weight

As you age, your body needs certain vitamins and minerals to stay healthy and in a healthy weight range. Here is a simple recipe that has some of these nutrients.

Easy Egg and Spinach Scramble

Ingredients:

- 3 eggs
- ½ cup frozen spinach (thawed and drained)
- 1 tablespoon olive oil or butter
- Salt and pepper to taste
- 1 slice of whole grain bread (optional)

Instructions:

1. Heat olive oil or butter in a skillet over medium heat.
2. Add the spinach and cook for 2 minutes until warmed through.
3. Beat the eggs in a bowl and pour them into the skillet with the spinach. Scramble until the eggs are fully cooked, about 3-4 minutes.
4. Season with salt and pepper and serve with a slice of whole grain toast if desired.

MAXIMIZE YOUR PLAN

All about Healthy Home Visits

Want care without leaving the comfort of home? In addition to a visit from your care manager, we've partnered with Signify Health® to offer a Healthy Home Visit (HHV). During this covered visit, a licensed health care professional will come to you and make sure you get the care you need. Read more about the important benefits of HHVs.

What to expect during your HHV

This checkup is a chance to meet with a licensed clinician — all at no additional cost to you. During your HHV, the clinician can:

- Check your vital signs and reflexes
- Review your medical history and medications
- Check your breathing, eyes or feet
- Provide tips for home safety
- Screen you for certain health problems

Benefits of a Healthy Home Visit

- Personalized care
- Chronic condition management
- Medicine management
- Home safety checks and resource support
- A comfy environment, no transportation needed

Signify Health will share your HHV info with your care manager, who can follow up as needed. Your care manager works with you and your providers to make sure you get the right care and services. They will also reach out to book your annual health risk assessment. Their goal: To build a care plan that helps you live a healthier life.
