Dear Provider:

Aetna Better Health of New Jersey has entered into an agreement with OmniClaim to perform DRG validation and Equian to perform Data Mining reviews.

OmniClaim's DRG validation program will compare medical records to confirm that the claim paid under the DRG reimbursement methodology, per your provider agreement, has been coded, billed, and paid correctly. OmniClaim may contact you to arrange for a release of medical records.

Equian's Data Mining services will identify contract compliance and duplicate overpayments for both facility and professional claims.

In compliance with the HIPAA Privacy Rule, Aetna Better Health of New Jersey has entered into a Business Associate Agreement (BAA) with OmniClaim and Equian. The Privacy Rule allows a covered entity to share information with another covered entity's business associate as if the request came from that other covered entity.

Should you have any questions, please feel free to contact us via e-mail:
