

MSY

MSY Funding Effective Dates

MSY Initial Funding Application

 Funding will only be authorized for care provided on or after the date a complete application and for dates of service after custody return.

MSY Update Form & Application for Additional/Shifting funds

 Applications for additional or shifting funds must be detailed and complete to be considered for the MSY program.

 MSY Update and Applications for additional/shifting funds must be:

- Completed and submitted prior to the date that additional or shifting funds are needed. The State MSY team strongly recommends applications be submitted *at least two weeks prior* to the requested start date for using additional funds and *at least one week prior* to the requested start date for using shifting funds.
- Accompanied or preceded by complete and thorough updates. Failure to submit timely and complete updates will result in *automatic denial* of subsequent applications for additional or shifting funds.

Planning is key!

 An MSY Application and Funding tracker should be in place.
