OhioRISE, specialized behavioral health care from Aetna Better Health® of Ohio

Covered BH Respite Days Without Prior Authorization Changing

We continue to evaluate the care delivered to the youth served by OhioRISE, adjusting where necessary. We have determined a change in the duration of BH Respite services that may be provided without prior authorization is needed to better serve this youth.

Effective 11/01/2024 the number of days covered without prior authorization will increase from 50 to 90 days. All other requirements for this service remain unchanged.

Please contact your Aetna OhioRISE Provider Representative with any questions regarding this change. If you cannot locate your representative's information, feel free to contact us at 1-800-711-0773 or ohrise-network@aetna.com.
