Effective Date: 4/27/2024 Last Review Date: 9/2023;
4/2024

Applies to:	<input type="checkbox"/> Illinois	<input type="checkbox"/> Florida	<input type="checkbox"/> Florida Kids
	<input type="checkbox"/> New Jersey	<input checked="" type="checkbox"/> Maryland	<input type="checkbox"/> Michigan
	<input type="checkbox"/> Pennsylvania Kids	<input type="checkbox"/> Virginia	<input type="checkbox"/> Kentucky PRMD

Intent:

The intent of this policy/guideline is to provide information to the prescribing practitioner outlining the coverage criteria for Gender Affirming Care Services under the patient’s prescription drug benefit.

Description:

Policy Statement:

The Maryland Medical Assistance Program will provide medically necessary gender-affirming treatment in a nondiscriminatory manner; according to nondiscriminatory criteria that are consistent with current clinical standards.

Age and Consent Requirements:

Informed consent is required for all aspects of care. When consent involves a minor, parental consent will be required, and the current Maryland Minor Consent Laws will define who can consent for what services and providers’ obligations.

Pre-Authorization Requirements:

Pre-Authorization may be required for certain Medications, Surgical Procedures, and Medical Therapies. The Maryland Medicaid FFS program and the HealthChoice Managed Care Organizations (MCO) will provide Pre-Authorization review and benefit decisions. Adverse benefit decisions will be given a final determination by a health care provider with experience prescribing or delivering gender-affirming treatment who has reviewed and confirmed the appropriateness of the determination.

Covered Benefits:

1. Hormone Therapy
 - a. Cross Sex Hormone Therapy (Suppression/Replacement)
 - b. Puberty Suppression Therapy

Applicable Drug List:

Androgens:

- Jatenzo (testosterone undecanoate cap)
- Methitest capsule (methyltestosterone)
- Testopel (testosterone pellet)
- Testosterone cypionate
- Testosterone enanthate injection

Policy/Guideline:

Criteria for Approval:

- The patient is at least 18 years of age, or has parental consent, and has demonstrated the capacity to make fully informed decisions and consent to treatment. When consent involves a minor, parental consent will be required, and the current Maryland Minor Consent Laws will define who can consent for what services and providers' obligations.
 - Minors must be at least 12 years of age
- Provider is a somatic healthcare professional with a MD, PH.D, or NP who has competencies in the assessment of transgender and gender diverse people wishing gender-related medical and surgical treatment, OR
- Provider is a mental health professional with a Ph.D., M.D., Ed.D., D.Sc.,D.S.W., Psy.D, LCPCs, LCSW-Cs who has competencies in the assessment of transgender and gender diverse people wishing gender-related medical and surgical treatment.
- The patient has a diagnosis of gender incongruence.
 - The patient's experience of gender incongruence is marked and sustained.
 - The gender incongruence causes clinically significant distress or impairment in social, occupational, or other important areas of functioning.
 - The gender incongruence is not a symptom of another mental disorder.
- The patient has the desire to make their body as congruent as possible with a desired gender through surgery, hormone treatment or other medical therapies.
- Prior to gender affirming surgery,
 - **For Adults:** the patient must have experienced their desired gender for 6 months or more, which includes hormonal therapy (if indicated and there are no medical contraindications).
 - **For Adolescents,** the patient must have experienced their desired gender for 12 months or more which includes hormonal therapy (if indicated and there are no medical contraindications).
- Start date of living full time in the new preferred gender: ___/___/___
