

Date: July 11, 2022

To: Home and Community-based Services (HCS) Providers
Texas Home Living (TxHmL) Providers
Intellectual and Developmental Disability Authorities (LIDDA)

Subject: Information Letter No. 2022-38 (Corrected)
New Critical Incident Management Reporting System (CIMS™) for
1915(c) Medicaid Waiver Program Providers

This letter is a status update on implementation of the Critical Incident Management System (CIMS™) which impacts Home and Community-based Services (HCS), Texas Home Living (TxHmL) providers and Local Intellectual and Developmental Disability Authorities (LIDDA).

PROVIDER ADMINISTRATION DEMONSTRATIONS

HHSC will host six CIMS™ Provider Administration Demonstrations webinars in July. While not required, HHSC strongly encourages providers to register and attend one of the webinars below. Please click on a date/time (all Central Time Zone) below to complete the registration process. All sessions will cover the same content.

- [Tuesday, July 19, 2022, 10:30 AM – 11:30 AM](#)
- [Wednesday, July 20, 2022, 3:00 PM – 4:00 PM](#)
- [Thursday, July 21, 2022, 10:00 AM – 11:00 AM](#)
- [Tuesday, July 26, 2022, 10:00 AM – 11:00 AM](#)
- [Wednesday, July 27, 2022, 2:30 PM – 3:30 PM](#)
- [Thursday, July 28, 2022, 11:00 AM – 12:00 PM](#)

The CIMS™ Provider Administration Demonstrations have limited capacity, so HHSC requests that just one individual from each provider agency attends one session. It is ideal for the designated provider administrator to attend the webinar, but another staff member can attend if needed.

CURRENT REPORTING REQUIREMENTS

Under current reporting guidelines, LIDDAs and providers must enter critical incident data in the Client Assignment and Registration System (CARE) no later than 30 calendar days after the last day of the month being reported. Providers should continue to follow current reporting requirements until the new CIMS™ is implemented.

TIMELINE FOR IMPLEMENTATION

Starting when CIMS goes live, providers will use the newly developed CIMS™ to report critical incidents to HHSC and will no longer be required to submit critical incidents through CARE. The timeline to report a critical incident through the new CIMS™ will not change.

HHSC understands staff shortages and other challenges associated with the COVID-19 pandemic make this a difficult time to implement a new reporting system. HHSC will work with all waiver providers to ensure this transition in reporting systems occurs on a reasonable timeline.

REQUIRED TRAINING

To access the new CIMS™, every user will be required to complete a brief CIMS™ online training module specific to their role in the system. This mandatory training will be available when the system goes live. The Provider Administration Demonstrations do not replace the mandatory online training.
