

Adult Immunization Status (AIS-E)

HEDIS® Measurement Year 2024

Measure description: This measure captures the percentage of members **19 years of age and older as of January 1** of the measurement year who are up to date on recommended routine vaccines for influenza, tetanus, and diphtheria (Td) or tetanus, diphtheria and acellular pertussis (Tdap), zoster and pneumococcal.

Numerator codes

Vaccine	Timeframe	Code Type
Influenza	On or between July 1 of prior year and June 30 of measurement year	CPT: 90630, 90653, 90654, 90656, 90658, 90660, 90661, 90662, 90672, 90673, 90674, 90682, 90686, 90688, 90756
Td/Tdap	Between nine years prior to the start of the measurement period and the end of the measurement period	CPT: Td: 90714 Tdap: 90715
Zoster	1 dose of herpes zoster live or 2 doses of herpes zoster recombinant at least 28 days apart, on or after their 50th birthday-before or during measurement period	CPT: Herpes Zoster Live: 90736 Herpes Zoster Recombinant: 90750
Pneumo-coccal	At least 1 dose of adult pneumococcal on or after 19th birthday - before or during the measurement period	CPT: 90670, 90671, 90677, 90732 HCPCS G0009

Strategies for improvement

- Schedule appointments to coincide with required timeframes for immunization administration
- Use your electronic medical record (EMR) system to set reminder flags
- During visits, talk about the importance of being immunized
- Ensure the member's medical record includes immunization history from all sources (NOTE: "Up to date with all immunizations" does not meet compliance)
- Reference the CDC Immunization Vaccine Schedule: [cdc.gov/vaccines/schedules](https://www.cdc.gov/vaccines/schedules)
